

CUMULATIVE INDEX, VOLS. 92-96

I. INTRODUCTION

This index includes entries for articles, book reviews and other writings published in the *Military Law Review* from volume 92 (spring 1981), Department of the Army Pamphlet No. 27-100-92, through volume 96 (spring 1982), DA Pam No. 27-100-96, inclusive. About 20 writings are indexed, and half of these are full-length articles. The remainder are book reviews, symposium introductions, and writing award announcements. This index is an addition to the index presented in volume 91 (winter 1981), and it replaces the volume indices found in volumes 92, 93, and 94.

This index, like volumes 81 and 91, consists of an author index, a subject index, a title index, and a two-part book review index which lists books by author and by book title and review title. Numerical references along right-hand page margins are to volume numbers and pages. Thus, 92/1 means page 1 of volume 92 of the *Military Law Review*, or 92 Mil. L. Rev. 1 (spring 1981).

In the author index, each named author is listed separately. Thus, writings having more than one author are listed more than once in the author index. In the case of military authors, an effort has been made to include the highest rank or grade held by the author up to the time of preparation of this index. Errors are inevitable with this type of effort, and the editor apologizes in advance. Authors of book reviews are listed in the author index rather than the book review index. Book authors are listed only in the book review index.

The subject index is the heart of this index volume. The subject index is preceded by a list of the subject-matter headings used. These headings are taken from the list of headings in the volume 81 and 91 indices, and from the volume indices appearing in volumes 92 through 94. Writings are indexed by title under appropriate subject-matter headings.

Every effort has been made to list each writing under as many different subject-matter headings as possible. The assignment of writings to headings is the choice of the editor of the *Review*, and does not reflect the views of The Judge Advocate General's School, the Department of the Army, or any governmental agency.

Certain publication notes written by the editor of the *Review* are listed in the subject-matter index under the heading "Publication Notes." These notes, a page or less in length, appear in the section called "Publications Received and Briefly Noted," in volume 83 and later volumes, or "Books Received and Briefly Noted," in volumes 80 and 82. These notes, unlike the writings indexed as book reviews, are primarily descriptive and nonevaluative in character, and are not in themselves sufficiently significant as works of scholarship to merit indexing. However, some of them provide information about books of special interest to judge advocates or other government attorneys, and are indexed for that reason.

In the title index, titles of articles are listed in alphabetical order of the first major word of each title, disregarding *a*, *an*, and *the*. Book reviews and book titles are listed similarly, by first major word of the title of the book.

The book review index is in two parts. Part A, book authors, lists alphabetically all authors or editors of books and pamphlets reviewed. Writings having more than one author or editor are listed more than once. Part B of the book review index is an alphabetical list of book titles and review titles. Book titles and review titles appear in both the subject index and the title index. Reviewers are listed in the author index. Book authors and editors appear only in part A of the book review index.
